QUESTIONS TO THE FOOL

Playful conversations with Giovanni Fusetti

Welcome to an evening of epistemological improvisation at the edge between Theatre, Pedagogy, Psychology and beyond.
I am happy to invite you to bring your own questions to a conversation with the Fool, the Clown, the Trickster, the Hero, the Bouffon and the Wounded Healer.

After an introduction the seminar will be based on questions from the participants, who will choose to which of this archetypal figures they want to address their question.
Here are some examples of the kind of questions that appear during this seminar.

Why we need live theatre?
What is the difference between a Clown and a Bouffon?
Will the Fool fall when he walks off the cliff?
Why a King without a Fool is dangerous?
Why do we laugh when clowns fall?
Shall we look for Artificial Intelligence or Natural Stupidity?
Can we laugh while we are dying?

Duration: from a minimum of 2 hours to a seminar of a full day: 7 hours in 4 sessions, two in the morning and two in the afternoon. See next page for further details

A SEMINAR of Q&A

A seminar is a playful epistemological banquet.
An extended Q&A: Questions & Answers & Further Questions.

In a **SEMINAR** the focus is on the THEORY that stands behind a practice. It is a space of reflection and intellectual elaboration: it creates a field of discussion, analysis, examples, questions and synthesis. Experiential exercises are integrated by moments of discussion and intellectual and emotional integration. A seminar gives food for the mind, references, history of ideas, articulation of principles, awareness of awareness.

Etymology tells us that the word ***theory*** means something you observe, a spectacle, and it is connected with the word ***theatre***. They both contains the element *thea = to look at, to see.* A theory is a choreography of ideas and principles moving in the mind space and seen by awareness. An intellectual performance to attend and enjoy. A theory that can't be performed in space is, most likely, not that good.

The seminar will include different ingredients: talks by Giovanni, collective exercises and games, exploration of the questions from the participants.
